

**What is claimed is:**

1. A baby carrier comprising:

a wrapper partitioned to a front portion and a rear portion,  
wherein the front portion has a back support to support the back of a  
5 baby when needed and a hip sheet extending from the back support, wherein  
the rear portion has a bottom sheet extending from the hip sheet and  
a rear sheet extending from the hip sheet, wherein auxiliary supports  
are each connected to the bottom sheet to support the thighs of the baby  
when needed; and

10 shoulder straps connecting the back support to the auxiliary  
supports to become hooked on the shoulders of a baby caretaker when  
needed, wherein the hip sheet is foldable over on the bottom sheet so  
as to allow the baby to sit on the hip sheet detachably layered on the  
bottom sheet supported by the auxiliary supports.

15

2. The baby carrier of claim 1 further comprising safety belts  
connected to a lower-center of the wrapper, wherein the safety belts  
are detachably connected over the thighs of the baby to the auxiliary  
supports.

20

3. The baby carrier of claim 1 further comprising connection belts  
connecting the shoulder straps.

25 4. The baby carrier of claim 1 further comprising a pocket attached  
to the rear sheet.

5. The baby carrier of claim 1 wherein the auxiliary supports are connected by gap adjustment straps to the shoulder straps.
- 5 6. The baby carrier of claim 1 wherein the wrapper is formed in a sack format.
